**FOR IMMEDIATE RELEASE**

## **NORIBACHI INTRODUCES NEW DC-DC LED POWER SUPPLIES**

*New DC-DC Power Supplies Expand Efficiency And Optimize The Performance  
Of All Noribachi LED Lighting Fixtures*

**HARBOR CITY, CA – November 18, 2015** – Noribachi, a leading U.S.-based custom LED manufacturer for high output commercial and industrial lighting solutions, introduces new DC-DC LED power supplies for all its Bespoke Engineered and Specifically Tailored (BEST) LED lighting fixtures.

A spin-off from the conventional AC-DC drivers, the new range of DC-DC LED power supplies provide the ability to run numerous applications that require DC power intake with a full range of coverage from 12 – 750V. The DC-DC power supplies cater to a wide spectrum of DC powered applications including stadiums, offshore platforms, oilrigs, harbors, ports and solar solutions.

The Noribachi DC-DC LED power supplies expand the efficiency of its LED light engines by minimizing the losses related to converting from AC power to DC power as well as optimize the performance by decreasing the heat created by the conversion.

“Our new DC-DC power supplies offer a full DC range from 12 – 750V. These new power supplies allow us the flexibility to customize our LED lighting applications even further for customers with standard DC power,” says Franklin Dibachi, Director Engineering, Noribachi.

The DC-DC power supplies are now available as an optional upgrade on all Noribachi BEST LED lighting fixtures. For the full more information about the DC-DC power supplies as well as all Noribachi products, visit [Noribachi.com](http://Noribachi.com) or call 855.283.1100.

### **ABOUT NORIBACHI**

U.S.-based Noribachi is a leading custom LED manufacturer for high output commercial and industrial solutions. Noribachi applies a Bespoke Engineered and Specifically Tailored (BEST) methodology to deliver unlimited LED light applications.

Noribachi is dedicated to improving the light industry by incorporating design and technology to our BEST lighting solutions. For more information, visit [www.noribachi.com](http://www.noribachi.com).
